

Your Money Plan

Session 3 · Future Spark · Building Your First Budget

Your Adventure Today

Three missions. One big skill. Let's go.

Mission 1

The 3-Jar Split — Icebreaker

Mission 2

Build the Sharma Family Budget

Mission 3

The 3-Jar Method — Your Personal System

Take Home

Your Budget Tracker

Brain Dump — What Do You Remember?

Before we start — empty your brain onto this page! No peeking at notes.

Income vs Expense

What's the difference?

Needs vs Wants

Give 2 examples of each

From Last Session

What's one thing that surprised you?

 You have 2 minutes. Go!

Quick Recap

Look at your Session 2 supermarket receipt. Can you answer these?

Needs

How much was spent on **needs**?

Wants

How much was spent on **wants**?

Fixed vs Variable

Name one **fixed** expense and one **variable** expense from home.

The Bridge

Last Session

You learned **where money goes.**

Today

You'll build a plan that decides **where it goes before you spend it.**

That Plan

Is called a **budget.**

**Imagine I gave you
₹1,000 today...**

**What would
you do with it?**

Write it down. Be honest. No wrong answers! 

 **Would you save any of it — or spend it all?**

Think About It...

Why did you put **that amount** in savings?

Why not more? Why not less?

There's no wrong answer — yet. 🤔

🤫 Psst... Millions of People Use a Secret Rule for This

Want to hear it?

It's called the **50/30/20 Rule**.  You just tried it intuitively. Now let's see the framework.

The 50/30/20 Rule

Split every rupee you earn into three buckets:

 Needs · 50%

 Wants · 30%

 Savings · 20%

50% → Needs

Rent, food, school, transport

30% → Wants

Eating out, games, streaming, clothes

20% → Savings

Future you says thank you!

 Example: 50% of ₹1,000 = $50 \times 1,000 \div 100 =$
₹500

⚠ Important: It's a Starting Point, Not a Law!

- ❏ Some families need **60% on needs**. That's okay. The point is: **have a plan**. Any plan beats no plan. 💡

The 50/30/20 rule is a **guide** — not a strict rule. Adjust it to fit your life. What matters is that you're thinking ahead.

5 Steps to Build a Budget

**Know
Income**

**List
Expenses**

**Need or
Want**

Set Limits

**Track &
Adjust**

Follow these five steps every time you build a budget — whether it's ₹500 pocket money or a full family income. Review. Tweak.

Repeat. 

Mission: Build the Sharma Family Budget!

Both Parents Working

Combined income:
₹40,000/month

Aarav, 13 • Meera, 9

Two kids. Two sets of needs.
Real choices.

Rented Apartment

Mid-sized Indian city

Your challenge: Account for every single rupee. 💪

Before We Start — Quick Predict!

Do you think **₹40,000 is a lot** for a family of four?

Remember your answer. Let's find out together. 🙄

 **Yes**

That's plenty!

 **Maybe**

Depends on expenses

 **No**

It'll be tight

The Sharma Expense List — 15 Items

Fill in the blank amounts. Categorise each as **N (Need)** or **W (Want)**. Make it all fit in **₹40,000!**

#	Expense	Type	N/W	Amount (₹)	Notes
1	Rent	Fixed	N	₹12,000	Non-negotiable
2	Groceries & cooking	Variable	N	You decide	₹4,000–7,000 range
3	School fees (2 kids)	Fixed	N	₹4,000	Non-negotiable
4	Electricity bill	Variable	N	You estimate	₹800–1,500 range
5	Transport (bus/auto)	Variable	N	You decide	
6	Mobile recharge (×2)	Fixed	N	₹500	Given
7	Internet / Wi-Fi	Fixed	N/W?	You decide	Debate this!
8	Eating out / takeaway	Variable	W	You decide	
9	Kids' pocket money	Variable	W	You decide	
10	Clothes / shoes	Variable	W	You decide	Not every month
11	Netflix / streaming	Fixed	W	You decide	
12	Medical (estimate)	Variable	N	You decide	Emergency buffer
13	Festival / birthday	Variable	W	You decide	Not every month
14	Aarav's cricket class	Fixed	N/W?	You decide	Debate this!
15	Savings	—	—	What's left?	Or plan it first?
TOTAL				₹40,000	Must balance!

😬 Uh Oh... The Total Is Over ₹40,000!

The Sharmas can't print money. 🖨️❌

✂️ What Gets Cut?

Which wants can the Sharmas live without this month?

🔒 What Cannot Be Cut?

Which needs are absolutely non-negotiable?

🎓 Welcome to Prioritisation!

This is the moment budgeting becomes real.

The 50/30/20 Check

Now apply the lens to your Sharma budget:

 **Needs**

Is it close to ₹20,000? Check your total.

 **Wants**

Is it close to ₹12,000? How did you do?

 **Savings**

Is it close to ₹8,000? Did you plan it first?

 *It won't match perfectly — that's fine! The point is the lens. 🔍*

Think About It 🤔

Out of 10 families in India — how many keep track of their budget?

Write down your guess 🖋️

★ Fun Fact Break!

💰 93% of Millionaires

Stick to a budget they make. Every. Single. Month.

💰 Indian Families Who Budget

60% of Indian families have no written budget — the ones that do save **3× more**.

🪔 Diwali Spending Spike

Consumer spending spikes **25–40%** during Diwali. Smart families budget in September!

📖 The Kakeibo Method

Many people think budgeting means saying 'no.' But the Japanese method Kakeibo asks: 'Will this purchase improve my life?' Spend intentionally — not just carefully.

The 3-Jar Method — Your Personal System

You just budgeted for the Sharmas. Now let's build one **for you**.

● Jar 1 — NEEDS

School supplies, bus fare, lunch

● Jar 2 — WANTS

Snacks, games, going out

● Jar 3 — SAVINGS

Don't touch. It grows. It's for future you.

📌 The rule: Fill savings **FIRST**. Every single time. 🔒

Design Your Jars!

Grab your ₹1,000 gift from earlier — or your real pocket money.

● Jar 1 — NEEDS

Label it — what's your first need?

● Jar 2 — WANTS

Label it — what's your first want?

● Jar 3 — SAVINGS

Draw your goal — a book, headphones, a trip?

Draw, write, or describe your 3 jars — make them yours. 

Short-Term vs Long-Term Savings

Inside your savings jar, there are two compartments:

SHORT-TERM SAVINGS

For small goals,
weeks to months

LONG-TERM SAVINGS

For large goals,
months to years

⚡ Short-Term

Weeks or months away
— a book, a birthday
gift, a trip. Has a
deadline.

🚀 Long-Term

Months or years away
— a laptop, college,
your first business. Has
a **direction.**

*Short-term has a deadline. Long-term has a direction. **Both matter.***

Quick Check — Can You Answer These?

1 The 5 Steps

What are the **5 steps** to building a budget?

2 ₹50,000 Family

How much goes to savings under 50/30/20?

3 Savings Goals

One **short-term** and one **long-term** savings goal — go!

4 The Sharma Cut

What did **you** cut from the Sharma budget — and why?

No peeking! Explain your reasoning out loud. 

Level Up! Budget Builder Challenge

Before we finish, let's see if you can explain these money words in your own words!

50/30/20 Rule

3-Jar Method

Short-Term Savings

Long-Term Savings

Budget Tracker

Allocation

Surplus

Deficit

Your Budget Tracker — Take It Home!

Every rupee in. Every rupee out. Written down. Every day.

Date	Item	Amount (₹)	Category (N/W/S)
e.g. 15 Jul	School lunch	₹50	N
e.g. 15 Jul	Pocket money received	+₹200	Income
e.g. 16 Jul	Snack	₹30	W
e.g. 16 Jul	Savings jar	₹40	S
...	...	...	...

Sunday

Sun	Mon	Tue	Wed	Thu	Fri	Sat
				1	2	3
4	5	5	6	7	8	9
10	11	12	13	14	15	16
16	17	18	19	13	20	21
24	25	25	26	27	28	30
30						

Review Every Sunday.

That's the habit. That's the power. 💪

One small weekly review = total control over your money. Start this Sunday.

Your Session 3 Missions — Take Home!

O1

Task 1 — List 15 Expenses

With a parent. Label each: Need or Want?

O2

Task 2 — Apply 50/30/20

Use your family's real income. Do the maths.

O3

Task 3 — Set Up Your 3 Jars

You designed them in class — now put real money in. Take a photo of your finished jars! 📷

O4

Task 4 — Reflect

What was hardest about the Sharma budget? What surprised you?

O5

Bonus — Start Your Tracker

Today. Keep it going until Session 4!

🌟 Reflection — Your Turn!

💬 In Your Own Words

What's the 50/30/20 rule — explain it without looking!

🫙 Hardest Jar

Which jar will be hardest to maintain — and why?

😴 Honest Check

Was any part of today boring or too easy?

🤔 Still Curious

What question is still in your head?

★ Rate Today

1 to 10 — be honest!

Mission Complete!

You now know what money is, where it goes, and **how to plan for it**.

Three sessions in — you're already ahead of most adults. 🎓

✓ Session 1

What is money?

✓ Session 2

Where does it go?

✓ Session 3

How do I plan it?

Next → Session 4

Banking: Where does money live when it's not in your pocket?
